Hospice & Palliative Care Charlotte Region goes live with Homecare Homebase solution

Dallas, TX – October 21, 2020 - Homecare HomebaseSM (HCHB) the nation's #1 software for home-based care is now the software provider for Carolina-based [Hospice & Palliative Care Charlotte Region](#) (HPCCR). The not-for-profit agency provides expert end-of-life care, grief support and community education to help relieve suffering and improve the quality and dignity of life through compassionate care.

HPCCR President & CEO Peter Brunnick said the agency had been looking for a single, comprehensive solution to enable seamless interoperability across multiple health care systems, tackle increasingly complex compliance issues and better position the agency for continued growth.

“We asked a number of vendors who they thought we should work with – and the answer was HCHB,” said Brunnick. “The fact that they could help us integrate everything from electronic documentation and physician signatures to pharmacy and medical supply orders was a priority for us. And the disciplined workflow structure means each person is highly accountable – which is the perfect fit for our culture.”

Homecare Homebase President Scott Decker said his company is seeing more and more interest from agencies of all sizes – in all areas of home-based care. “At a time of increased regulation and ever-tighter margins, agencies know growth requires more than simply adding to their patient census. We’re here to help empower exceptional

patient care through increased efficiencies, enhanced interoperability and the compliance expertise to help them capture every available dollar.”

About HPCCR

The mission of Hospice & Palliative Care Charlotte Region is to relieve suffering and improve the quality and dignity of life through compassionate hospice care for those at the end of life, palliative care for those with advanced illness and through community education. Operating since 1978, Hospice & Palliative Care Charlotte Region provides expert end-of-life care as well as grief support and community education. HPCCR is committed to offering quality of life to patients and families in their community who are coping with serious illness. Established as North Carolina’s first hospice provider, HPCCR serves over 2,000 patients each day for hospice and palliative services across the Carolinas.

About Homecare Homebase, LLC

Homecare Homebase (HCHB) is a Dallas-based software leader offering hosted, cloud-based solutions to streamline operations, simplify compliance and boost clinical and financial outcomes for homecare and hospice agencies. Our customized mobile solutions enable real-time, wireless data exchange and communication between field clinicians, physicians and office staff for better care, more accurate reporting and faster payment. Founded by industry veterans in 1999, the company is now part of the Hearst Health network. For more information visit hchb.com or call us toll-free at 1-866-535-HCHB (4242).
