Homecare Homebase Announces May 2025 Gold Standard Award Winner

Dallas, Texas – May 06, 2025 – [Homecare Homebase](#)SM (HCHB), the leading software provider for home-based care, has named Tomas Berry, RN and Case Manager at Embrace Hospice and Home Health, as the May Gold Standard Award Winner.

“Tomas is an absolute pleasure to work with and is an amazing team player,” said Embrace Hospice and Home Health leaders. “He is a passionate nurse who spends quality time taking care of his patients and their families, listening to them, looking for resources to help them, and making end of life an exceptional experience for them. Tomas always makes himself available to help others, and his work goes above and beyond to help families make proper decisions.”

The Gold Standard Award celebrates outstanding home-based caregivers who utilize HCHB to deliver exceptional patient care. Nominees are submitted by their agency leaders and meticulously chosen by the HCHB team for their expertise, enthusiasm, and steadfast dedication.

At Embrace Hospice and Home Health, Tomas oversees patient care and involves himself in family dynamics, ensuring both patients and families are heard and receive high-quality care. He was selected for the Gold Standard Award because he embodies excellence in hospice care, ensuring comfortability in an often-difficult time for patients and families.

“Tomas balances compassion and clinical responsibility, ensuring that proper hospice paperwork - such as DNR/DNI forms - are complete, while always being informed about a patient’s commodities, medication effects, and side effects,” said leaders at Embrace Hospice and Home Health. “His contributions to our organization and patients are immeasurable, and we are grateful to have him on our team.”
